

# SAFETY EYEWEAR

## AVATAR™ OTG SAFETY GLASSES

- Over-the-Glass (OTG) safety glasses are an ideal solution for workers who wear corrective lenses, as they're simply worn over their own prescription eyewear
- Unlike most OTGs, weight is dispersed throughout the brow and the nose piece
- Multi-Material Technology™ Plus nose piece offers 3 vertical positions and flexes to most nose sizes to provide the ultimate comfort and fit
- Multi-Material Technology™ Plus (MMT+) is an innovative rubber compound that provides exceptional grip and comfort
- Angle-adjustable ratchet temples offer up to a 15° adjustment range for a better fit
- Insulated wire core temples provides increased adjustability, customizability, and non-conductivity
- Patented indirect venting technology significantly reduces fogging
- Lens Coating: Anti-Scratch
- Standard(s) Met: CSA Z94.3/ANSI Z87+

\* Does not feature Duoflex® temples

## SECUREFIT™ 100 SERIES SAFETY GLASSES

- 3M's innovative temple design features slotted ribs that provide comfortable pressure equalization, allowing the temples to flex and self-adjust to the size of the wearer's head
- Curved temples apply pressure to the less sensitive back of the head, instead of the temples, achieving a comfortable fit even during rapid head movement
- Sporty design with contemporary lens shape and a sleek profile
- Adjustable ratchet temples allow user to adjust the lens for facial features and eyeglass position
- SecureFit's flat and flexible temple design combines well with 3M™ Protective Earmuffs
- Choose from models with anti-fog/anti-scratch or 3M™ Scotchgard™ Anti-Fog coating
- U6 rated polycarbonate lenses absorb 99.9% of UVA, UVB, and UVC rays between 200 nm and 380 nm
- Workers can feel confident wearing 3M eye protection that meets the Impact-Rated Protector requirement of the ANSI-ISEA Z87.1-2020 Standard
- Standard(s) Met: CSA Z94.3, ANSI Z87+
- Temple Colour: Black
